

IF YOU WANT TO KNOW MORE

IF YOU WANT TO KNOW MORE

While you're conducting outreach on Medicare prescription drug coverage, you may get questions on other Medicare topics. The folders in this section will give you more detailed information about other Medicare topics, which you can use to answer questions. The information is written as you might explain it to a person with Medicare. If you need more information, you can visit www.medicare.gov on the Web or call the **1-800-MEDICARE** helpline (1-800-633-4227). TTY users should call 1-877-486-2048.
